

**Our effort in successful results for heart patients using Sanjeevan Heart Attack Rehabilitation Program '*SHARP*' including- Ayurvedic *SUVED* to restore myocardial perfusion & attain functional stability at the earliest**

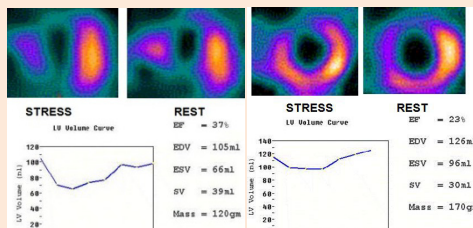

**Integrated Management of Ischemic Heart Disease/ Coronary Artery Disease and Vascular Blocks- Stroke, Deep Vein Thrombosis**

FDA approved, patent applied; manufactured in GMP certified company with quality tests as per regulations for heavy metals and steroids.

**Ayurvedic SUVED is effective for**

- ✓ Acute MI, Thrombotic stroke, DVT, CAD
- ✓ Hastens symptomatic recovery, reduces hospitalization time & mortality, helps dissolve clots, soft thrombus and open up blockages early
- ✓ Can avoid incidences in Post event treatment including MI, Angioplasty/ stent, Bypass & recurrence of symptoms
- ✓ Primary prevention in high risk groups
- ✓ Symptomatic relief in complicated cases like conventional medicine intolerance, diabetes, hypertension, medical complications when patient is not fit to take modern medical treatment due to any reason
- ✓ Aged patients. It is recommended that cardiac & other surgical procedures be avoided after 60 yrs
- ✓ Patients who cannot afford or are reluctant for invasive therapy
- ✓ Post menopausal women with high risk conditions
- ✓ Deep Vein Thrombosis
- ✓ Thrombotic Cerebro Vascular Accidents (Stroke)
- ✓ Metabolic Syndrome patients

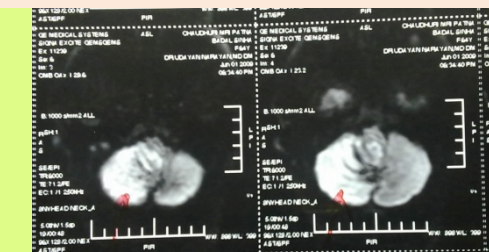

Patients show positive changes in chronic symptoms & early recovery in acute cases with reduction in mortality & hospital stay.

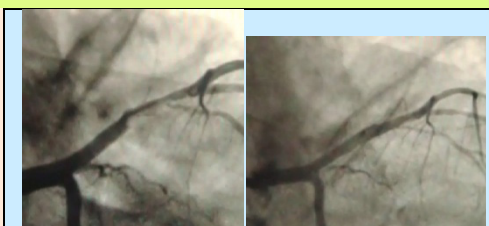

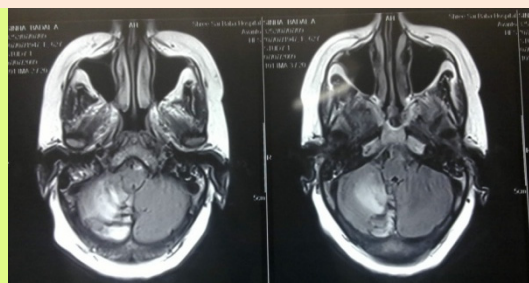

In Post event management, 80 % cases show positive patient functional response and improvements in conventional investigations after 3-4 months recorded as:

- Improved Ejection fraction
- Improved Stroke volume
- Improved Myocardial perfusion
- Correction of Diastolic dysfunction
- Improved endothelial function
- Soft thrombus / clots dissolved
- Regeneration of collateral circulation
- Reduced & balanced levels of oxidants , Free radicals , Lipid profile
- Arterial compliance improved
- Symptomatic relief of Chest Pain , Heaviness in chest , Breathlessness
- Improved Walking stamina , Overall energy , Vigor , vitality, Functional stability
- Complete reversal of Myocardial Perfusion is noted in few cases on Stress Patient symptoms loss of limb mobility, THROMBOTIC STROKE MRI Images. Results in 14 Days Cap Suved 1 BD+ Cap ImmuRich 2 TDS slurred speech, loss of grip Thallium Scans

Positive Changes noted in ECG , Stress test, CT Scan Brain, MRI Brain, Color Doppler

Reduced & restricted blood flow: thrombus noted Blood flow resumed; 7 days treatment with SUVED supplemented with Cow Colostrum

Angiograms show changes in the blockage status and possible angiogenesis to improve myocardial perfusion

**Results**

There is Global need for additional modality for primary & secondary prevention of Myocardial Infarct. SHARP-Ayurvedic Suved supplemented with immunity enhancers in Cow Colostrum offers a **affordable, acceptable, accessible and easily available** protocol for all patients. SHARP-Ayurvedic Suved has been scientifically proved to support & treat primary & secondary cases of CAD / IHD/ Thrombotic stroke / DVT.
